

Q7055A BUILDING NETWORK ADAPTERS BNA-1C, -2CS, -2DN

SPECIFICATION DATA

APPLICATION

The Building Network Adapter (BNA) delivers exceptional price/performance to meet the requirements of both building owners and service providers.

With its combination of scalable performance, density and low per-port pricing, the BNA allows network-layer capabilities to be extended to a much wider range of network configurations and environments. Customers can now gain the advantages of high-performance network and services, including traffic management, to more locations throughout the network.

The BNA-1C supports a single RS-485 DC coupled C-Bus compatible communication channel for XL500 family devices with up to 76.8 kbps and single AUI, RS-232 and 10BaseT-interfaces.

The BNA-2CS supports two RS-485 DC coupled C/S/FS-90 Bus compatible communication channels for different applications as well as XL500 family devices with up to 76.8 kbps and single AUI, RS-232 and 10BaseT-interfaces. Support for S-Bus and FS90 Bus varies by system type.

The BNA-2DN supports two RS-485 AC coupled Manchester encoded L1/L2-Bus compatible communication channels and single AUI, RS-232 and 10BaseT-interfaces.

The BNA uses the LAN connection to provide a seamless communication to the requesting device.

Status information, like *LAN communication activity*, *field bus traffic communication* and *system heart beat* of the BNA is indicated by LEDs on the device front.

FEATURES

- TCP/IP network capable.
- Offers wide range of network connectivity options.
- Easy configurable network interface.
- Online system diagnostic support.
- Optional wall and rack mounting.
- Cost effective replacement for dial-up connections.

SPECIFICATIONS

Models:

Q7055A1007 Building Network Adapter BNA-1C.
Q7055A1015 Building Network Adapter BNA-2CS.
Q7055A1023 Building Network Adapter BNA-2DN.

Electrical Ratings:

Supply Voltage: 24 Vac, 50 to 60 Hz, 24 Vdc \pm 10% (external power supply required).

Power Consumption: 5 VA (connected via 10BaseT, twisted pair), 12 VA (connected via 10Base5, AUI).

Temperature Ratings:

Operating: 32°F to 122°F (0°C to 50°C).

Storage: -31°F to +160°F (-35°C to +70°C).

Humidity Ratings: 5 to 95% RH, non-condensing.

System Data:

Processor: 25 MHz, MC68EN360, 32 bit microprocessor (4.5 MIPS).

Data Transfers: 10 Mbit/sec., 802.3 Ethernet.

LAN Interfaces: AUI or 10BaseT (RJ45).

Field Bus: RS-485 AC coupled Manchester encoded channels (L1/L2-Bus compatible).

Device Interface: Serial RS-232.

Memory: 4MB SRAM, 2 MB flash.

MTBF: > 100,000h.

Safety:

Protection Standard: IP20 acc. to EN60529.

Protection Class: II acc. to EN60730-1.

Flame Retardant: V0 acc. to UL 94.

Dimensions: 3 in. (76 mm) high x 6-1/4 in. (158 mm) wide x 7-5/16 in. (200 mm) deep.

Weight: 1.76 lb (.74 kg).

Approvals:

Electromagnetic Compatibility (EMC): EN50081-1 and EN50082-2.

Electromagnetic Emission (EME): FCC Class A.

Energy Management: UL 916.

Fire Protection and Smoke Control: UL 864 (pending).

Additional Equipment:

Power Supply: WM080-1950 Elpac Power Systems, 120 Vac/ 60 hz, 0.16A input, 24 Vdc, 0.33A output, wall mounted power cube (not included, purchase locally).

SYSTEM OVERVIEW

Fig. 1 shows an application example of the BNA family devices in a Building Management System.

Typical characteristics of the BNA components are as follows (see Fig. 2):

- BNA:** The BNA contains a high-speed state-of-the-art Motorola 32-bit microprocessor including a communication coprocessor designed for maximum performance. It is designed for reliable and robust operation under a wide range of operating conditions.
- AUI:** 15-pin AUI female Ethernet LAN connector for coaxial and fiber optic linkage (with transceiver).
- 10BaseT:** 10BaseT RJ-485 Ethernet LAN connector meets the requirements of ANSI/TIA/EIA 586 Category 5 for unshielded twisted pair connections.
- RS-232:** 9-pin SUB-D male RS-232 connector, electrically isolated, PC pin compatible, protected against spikes.

Field Bus: 3-pin connectors for field bus connection (channels 1 and 2) electrically isolated, meets the EMC and FCC requirements.

Power: 2-pole Phoenix power connector for 24 Vac/dc power supplies. Suitable for use with off-the-shelf power supplies.

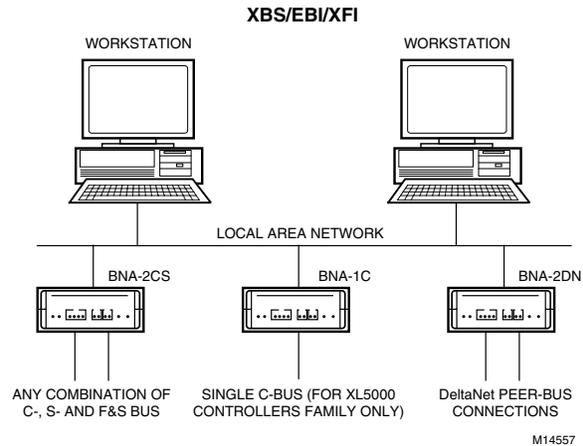

Fig. 1. Application block diagram.

ORDERING INFORMATION

| Model No. | Description | Shipping Weight lb (kg) |
|------------|---|-------------------------|
| Q7055A1007 | BNA-1C Building Network Adapter supporting a single RS-485 DC coupled C-Bus. | 1.76 (.74 kg) |
| Q7055A1015 | BNA-2CS Building Network Adapter supporting two RS-485 C/S/FS90 compatible buses. | |
| Q7055A1023 | BNA-2DN Building Network Adapter supporting two RS-485 AC coupled L1/L2 compatible buses. | |
